

National Association of Black Geologists and Geophysicists
30th Annual Technology Conference
“Innovations at the Boundary of Geology and Geophysics”
September 07 – 10, 2011

The NABGG wishes to thank our sponsors and supporters of the last 30 years. Your continued partnership allows our efforts to be successful.

Please join us for our **30th Annual Technology Conference: “Innovations at the Boundary of Geology and Geophysics”**. Our Annual Conference will be held in a beautiful setting in San Francisco, California at the Marriott Courtyard Downtown. Attending the conference will be an opportunity to look at some of the fantastic local geology in the exciting about Bay Area setting. Come network with affiliated organizations, corporations, universities, and student participants. The Annual Conference is an opportunity to provide face to face mentorship, particularly with underrepresented minority students.

As we began to celebrate thirty years we also continue our quest for greater scientific knowledge and ongoing support of geology and geophysics students across the nation. Our membership consists of individuals willing to share their own experiences and be a part of the developing scientific experiences of our youth. Come join us in San Francisco and share in the experience. Please contact Lisa White, (lwhite@sfsu.edu) at San Francisco State University with any questions about the conference.

Marriott Courtyard Downtown
299 Second Street

NABGG MISSION STATEMENT

The NABGG will support students pursuing degrees in Geology and Geophysics. The membership will inform students of scholarship programs, and career opportunities. The organization will maintain professional standards and practices in support of members within their Earth Science careers and entrepreneurial pursuits.

Visit our website <http://www.nabgg.com> to register for the Conference.
